Earnings summary for the report period The consolidated earnings of the Bank of Åland Group during the first half of 2010 were characterised by a clear improvement in income from asset management and private banking operations, while low market interest rates and depressed deposit margins continued to pull down net interest income in traditional banking operations. The Bank of Åland Group's managed assets showed very good growth, while lending and deposit volume increased moderately. Crosskey Banking Solutions Ab Ltd's operations expanded during the period, contributing to higher "Other operating income". During the period, the operations of Ålandsbanken Sverige AB were loss-making, even though managed assets showed positive growth. During January-June 2010, the consolidated net operating profit of the Bank of Åland Group decreased by 17 per cent to EUR 4.2 M (Jan-Jun 2009: 5.1). During the second quarter of 2009, the Group recognised negative goodwill of EUR 23.1 M as income, due to its purchase of Kaupthing Bank Sverige AB. Return on equity after taxes (ROE) decreased to 3.0 (35.0) per cent, and earnings per share to EUR 0.17 (2.23). The loss at Ålandsbanken Sverige AB during the report period totalled EUR 5.9 M. The subsidiary group Ålandsbanken Sverige AB was consolidated in the Bank of Åland Group for the first time on March 31, 2009. This meant that the company was included in the statement of financial position, while earnings for the first half of 2009 did not include effects generated in Ålandsbanken Sverige AB during the first quarter of 2009. This affects comparability between the periods. The allocation between the Group's Finnish and Swedish business areas can be found in the table entitled "Earnings, newly acquired operations" on page 9. Important events after the close of the report period The Bank of Åland Plc's issue of debenture loan 2/2010 was completed on July 19, 2010. This debenture loan issue totalled EUR 20 M.

Outlook for 2010 Most observers expect a continued gradual recovery in the general economy and in the financial system during 2010, but the economic situation will remain uncertain and there is thus great sensitivity. The Bank of Åland carried out an organisational change after completing the co-determination negotiations that were initiated on March 12, 2010. The aim of the reorganisation is to streamline the Bank's administrative functions by introducing Group-wide corporate and support units. Meanwhile the Bank is continuing to shift the focus of its operations increasingly to investment services, as part of its strategy of being a bank for investors that has financing know-how in expansive markets. The co-determination negotiations, which were completed on May 25, 2010, dealt with a need to reduce the number of positions by about 24 people. The negotiations achieved their aims without dismissals, by means of reassignments, early retirements and voluntary redundancy packages. A review was made of the cost structure at Ålandsbanken Sverige AB for the purpose of increasing efficiency while continuing to offer customers the same capacity and service. The Executive Team has identified potential efficiency improvements equivalent to an annual cost reduction of about EUR 3 M, of which half the potential is found at Ålandsbanken Sverige AB. This cost reduction is expected to achieve its full effect from the turn of the year. Nonrecurring costs associated with these measures are expected to total about EUR 0.5 M during 2010. The Group's assessment of the outlook for 2010 is based on its assumptions about future developments in the fixed income and financial markets. However, general interest rates, the demand for lending, the trend of the capital and financial markets and the competitive situation, as well as the general economic situation are factors that the Group cannot influence. Based on this assessment and taking into account that the Group's earnings in 2009 included sizeable non-recurring income attributable to negative goodwill from the acquisition of Kaupthing Bank Sverige AB, earnings in 2010

are expected to be substantially lower than in 2009. The Group's operational earnings, excluding nonrecurring income, are expected to be at least at the same level as in 2009. Interim reports will be published as follows during 2010. January-September 2010 Monday, November 1, 2010 Mariehamn, July 30, 2010 THE BOARD OF DIRECTORS ----- |
